PRODUCT DESIGN ENGINEER, UX MASTER'S & DEVELOPER

Passionate and highly qualified product designer and full-stack developer with experience in engineering, UX design and web development. Experience at international companies in Colombia, Spain and Germany. Proficient in tools such as Figma, Adobe Suite and front-end and back-end technologies. This unique mix of creativity and technical expertise allows me to create innovative digital solutions that prioritise user experience and effective problem-solving.

SKILLS

- Product design and development
- UX design and research
- Full-stack development

DESIGN TOOLS & SOFTWARE

- Figma, Miro
- Adobe Photoshop, Illustrator, After Effects
- JavaScript, HTML, CSS, Python, React, Next.js, SQL, AWS

PROFESSIONAL EXPERIENCE

UX Designer — **Oct 25 – Present**
Neurored, TMS & SCM software for global logistics
• Design and development of Design System components, including Figma prototypes, documentation and usage guidelines for implementation by Salesforce developers.
• Implementation of components with Lightning Web Components (LWC) and responsive design, ensuring visual consistency and scalability across the platform.
• Design of interfaces and user flows based on product requirements, collaborating with Product Managers, Salesforce developers and a 4-person UX team.

Co-Founder – Developer — **Dec 24 – Sep 25**
Prime Scout, E-commerce price intelligence service, Spain
• Chief Technology Officer – design and development of the scraping software and the data management app.

Junior Developer — **May 22 – Aug 23**
NEU Energy, Solar energy provider, Colombia
• Led the development of an end-to-end multichannel notification system (SMS, email and mobile apps), including real-time data analysis with AWS Lambda and SQL stored procedures.
• Built responsive web applications with Next.js to migrate clients to the Brazilian market, improving UX/UI with Tailwind CSS and Bootstrap.

Web Designer — **Jan 21 – Jun 21**
CheetahConversions, Performance marketing agency, Germany
Executed a comprehensive visual brand strategy by creating high-impact landing pages in Unbounce, developed the company's brand book using Adobe Photoshop and Illustrator, and produced digital marketing assets, including ad banners and animated content in After Effects.
